Education

Lovely Professional University

B.Tech - Computer Science and Engineering (CGPA: 8.47/ 10.00)

Expected July 2027

Phagwara, Punjab

Maharana Pratap Education Center

Higher Secondary (Percentage: 90.25%)

2022 - 2023

Kanpur, Uttar Pradesh

Maharana Pratap Education Center

Secondary School (Percentage: 93.5%)

2020 - 2021

Kanpur, Uttar Pradesh

Experience

CipherSchools – STP'25

MERN Stack Developer Trainee

- Completed comprehensive training in MERN Stack Development, covering **MongoDB**, **Express.js**, **React.js**, and **Node.js**.
- Developed full-stack project Carbon Footprint Tracker using **MongoDB**, **Express.js**, **React.js**, **Node.js**, and **GitHub**.

Projects

Carbon Footprint Tracker | HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, Chart.js, JWT

- Engineered a full-stack carbon footprint tracking application using **Node.js**, **Express.js**, and **MongoDB**, enabling users to calculate emissions from travel, diet, and energy usage.
- Integrated **RESTful APIs** and **Chart.js** visualizations to deliver personalized insights, leaderboards, and suggestions for reducing carbon emissions.
- Implemented **JWT authentication** to enable secure user login, activity history logging, and long-term progress tracking.

Shanti Brick Field Website | HTML, CSS, JavaScript, Tailwind CSS, PHP

- Designed and developed a responsive business website for Shanti Brick Field using **HTML**, **CSS**, **Tailwind CSS**, and **JavaScript**, featuring Home, About, Products, Gallery, Buy, and Contact pages.
- Built an interactive image slideshow with a responsive layout to showcase brick products and improve the customer browsing experience.
- Automated email notifications to the business owner using **PHP** whenever a customer submitted a contact or purchase inquiry form.

Bingo – Game | React.js, NodeJS, Socket.IO

- Created a scalable real-time, interactive Bingo game supporting **20+ simultaneous players** with seamless multiplayer functionality.
- Implemented bi-directional, event-driven communication using **Socket.IO** to enable real-time updates, efficient message handling, and low-latency data exchange.
- Designed and built an intuitive, engaging interface using **React.js**, focusing on component reusability, state management, and responsive design to enhance user retention.

Achievements

- Solved **150+** DSA problems on LeetCode.
- Elected as **Class Representative** for **3** consecutive academic years.
- Secured **5th** position in Intermediate and **4th** position in high school in the district.

Certifications

- | | |
|--|---------------------|
| Oracle Data Platform 2025 Certified Foundations Associate | Apr2026 – Apr2026 |
| Full Stack Development using MERN Stack — CipherSchools | Jun 2025 – Jul 2025 |
| Cloud Computing — NPTEL | Jan 2025 – Apr 2025 |
| Data Structures and Algorithms — IamNeo | Aug 2024 – Dec 2024 |

Technical Skills

Languages: C++, Java, JavaScript, SQL

Web Technologies: React JS, Node JS, Express JS, Tailwind CSS, HTML, CSS

Developer Tools: VS Code, Docker, Git, GitHub, MySQL, MongoDB, Figma, Postman

Soft Skills: Problem-Solving, Self-Learning, Adaptability, Decisive
